Programme Highlight

Terminal 2 Expansion is one of the core projects of the Three-runway System. The works include the construction of T2, North Annex Building (NAB) and Ground Transportation Centre (GTC) with interconnecting bridges, landside transport infrastructure including viaducts and at grade roads, underground utility services, one sewage pumping station with the associated electrical building, footbridges, external works and modification works to existing facilities. The project widely adopts BIM technology and other innovative construction solutions including cloud-based data platform and DfMA.
