Enrollment Deadline

10 October 24

Programme Highlight

Hilti technical experience center is the hands-on experience center for both internal and external training purpose. As a worldwide market leader of anchor bolt and cast-in channel which this is one of the essential part in every structural connection, the program will introduce the latest innovation on baseplate design, from anchor to overall connection design. Hands-on session will be also provided to experience the execution of design through proper installation and quality testing. You can understand deeper on how the workmanship affect the connection quality and how a proper QAQC plan can secure the quality.

Besides, the experience center will also have the showcase of latest construction innovation on MiMEP system and IoT power tools which suit for current digital construction development.
